

LEAPFROG GEO FUNDAMENTALS SEPT 16-18, 2016

A COURSE IN 3D IMPLICIT GEOLOGICAL MODELLING

Learn how to quickly convert your GIS, field and lab data into a comprehensive 3D geological model.

Create & evaluate multiple geological interpretations.

Share your results in form of sections, images, movies and even 3D printed models.

leapfrog[®]

FAST, DYNAMIC GEOLOGICAL MODELLING

Convert your project data into a robust 3D model

Digital manuals, training data, Leapfrog licenses and lunch are provided

All you need is a Windows operated PC and a mouse
